## Abstracts

Asia Pacific is a major region for dairy as the biggest market by value, although with the lowest per capita spending. While sales are primarily stemming from China, markets with large populations, like India and Indonesia, are growing rapidly. Growth is being aided by modern trade development, changing consumer habits and dynamic product development, which makes this region key for potential growth.

Euromonitor International's Dairy in Asia Pacific global briefing offers an insight into to the size and shape of the Packaged Food market, highlights buzz topics, emerging geographies, categories and trends and identifies the leading companies and brands. It also offers strategic analysis on driving packaged food industry trends like health and wellness, premiumisation, convenience and value-for-money and how those trends influence factors like new product developments, packaging innovations, retail distribution and retail pricing both historically and into the future.

**Product coverage:** Baby Food, Baked Goods, Breakfast Cereals, Confectionery, Dairy, Edible Oils, Ice Cream and Frozen Desserts, Processed Fruit and Vegetables, Processed Meat and Seafood, Ready Meals, Rice, Pasta and Noodles, Sauces, Dressings and Condiments, Savoury Snacks, Soup, Spreads, Sweet Biscuits, Snack Bars and Fruit Snacks.

**Data coverage:** market sizes (historic and forecasts), company shares, brand shares and distribution data.
