Abstracts

Dairy is the most important category within packaged food in value terms for Latin America, exceeding USD430 billion in 2017 and showing quite polarised growth between the countries in the region. Despite the fact that dairy consumption in Latin America is not as sophisticated in terms of product scope compared to more developed regions, there are also market opportunities that will be explored throughout this report.

Euromonitor International's Dairy in Latin America global briefing offers an insight into to the size and shape of the Packaged Food market, highlights buzz topics, emerging geographies, categories and trends and identifies the leading companies and brands. It also offers strategic analysis on driving packaged food industry trends like health and wellness, premiumisation, convenience and value-for-money and how those trends influence factors like new product developments, packaging innovations, retail distribution and retail pricing both historically and into the future.

Product coverage: Baby Food, Baked Goods, Breakfast Cereals, Confectionery, Dairy, Edible Oils, Ice Cream and Frozen Desserts, Processed Fruit and Vegetables, Processed Meat and Seafood, Ready Meals, Rice, Pasta and Noodles, Sauces, Dressings and Condiments, Savoury Snacks, Soup, Spreads, Sweet Biscuits, Snack Bars and Fruit Snacks.

Data coverage: market sizes (historic and forecasts), company shares, brand shares and distribution data.
