Abstracts

Dairy packaging registered a clear spike in demand in 2020, with most products within the category recording improved year-on-year performances. Underpinning the stronger consumer interest in these products was the strict approach taken to social distancing and home seclusion among the Swiss population during the year. With many people spending most of their time at home, there were far more opportunities for consumers to snack on dairy products or use them when preparing meals at home, particul...

Euromonitor International's Dairy Packaging in Switzerland report offers insight into key trends and developments driving packaging across the category. The report also examines trends and prospect for various pack types and closures: metal packaging, rigid plastic, glass, liquid cartons, paper-based containers; flexible packaging.
