Abstracts

The Algerian economy is witnessing stubbornly high inflation, which is eroding the purchasing power of lower-and-middle income consumer groups and curbing overall expenditure on dairy products and alternatives. Retail unit prices across dairy products and alternatives have increased sharply in 2023, due to inflationary pressures fuelled by the wider geopolitical fallout of the war in Ukraine. As a result, while growth in current value sales is above 2022 levels, overall retail volume growth is s...

Euromonitor International's Dairy Products and Alternatives in Algeria report offers in-depth knowledge of the market at a national level, providing local insight and understanding unavailable elsewhere.
