Abstracts

Dairy products has been negatively impacted by the recent social problems that the country has endured. In mid-2022, an 18-day national strike greatly complicated the logistics chain. As milk is a perishable item, much of the industry's raw material was wasted. At the time of writing, no new national strikes have been announced, therefore the market is expected to see an improved performance in 2023.

Euromonitor International's Dairy Products and Alternatives in Ecuador report offers in-depth knowledge of the market at a national level, providing local insight and understanding unavailable elsewhere. In addition to the latest retail sales data 2018-2022, it identifies the leading companies, brands and retail outlets, and assesses the key trends and demographic shifts behind consumer demand and sales growth. How key trends such as health and wellness, sustainability and recovery from the pandemic are shaping the market in directly informs our forecasts to 2027, clearly indicating how the market is expected to change.

Product coverage: Baby Food, Dairy, Plant-based Dairy.

Data coverage: market sizes (historic and forecasts), company shares, brand shares and distribution data.
