Abstracts

In 2023, baby food has seen retail price increases, especially for imported products, due to the weakening of the local currency. Despite these challenges, the category remains promising, driven by growing adoption rates and repeat purchases among urban parents. The demand for baby food shows potential for further growth as more parents in urban areas embrace these products, creating opportunities for both local and international brands.

Euromonitor International's Dairy Products and Alternatives in Myanmar report offers in-depth knowledge of the market at a national level, providing local insight and understanding unavailable elsewhere. In addition to the latest retail sales data 2018-2022, it identifies the leading companies, brands and retail outlets, and assesses the key trends and demographic shifts behind consumer demand and sales growth. How key trends such as health and wellness, sustainability and recovery from the pandemic are shaping the market in directly informs our forecasts to 2027, clearly indicating how the market is expected to change.

Product coverage: Baby Food, Dairy, Plant-based Dairy.

Data coverage: market sizes (historic and forecasts), company shares, brand shares and distribution data.
