Abstracts

The dairy sector continues to be under strain in Peru in 2023 and while current value is expected to grow, volume sales are expected to fall, dragged down by the weak performance of evaporated milk, which is Peru's most popular dairy product. This weak performance is reflected in the economy, which contracted in the first half of 2023. An unpopular government, bad weather, high interest rates and inflation are all constraining consumption, though inflation is easing slightly. With consumers stil...
