Abstracts

The performance of dairy products and alternatives continues to be shaped by the elevated inflation being seen in 2023, which has led to strong growth in current value terms, albeit at a slightly more modest rate compared to 2022. However, sales continue to struggle for growth in retail volume terms with the rising cost of living putting pressure on consumer incomes and resulting in more cautious purchasing behaviour.

Euromonitor International's Dairy Products and Alternatives in Spain report offers in-depth knowledge of the market at a national level, providing local insight and understanding unavailable elsewhere. In addition to the latest retail sales data 2018-2022, it identifies the leading companies, brands and retail outlets, and assesses the key trends and demographic shifts behind consumer demand and sales growth. How key trends such as health and wellness, sustainability and recovery from the pandemic are shaping the market in directly informs our forecasts to 2027, clearly indicating how the market is expected to change.

Product coverage: Baby Food, Dairy, Plant-based Dairy.

Data coverage: market sizes (historic and forecasts), company shares, brand shares and distribution data.
