Abstracts

In 2010, cheese continued to record healthy retail volume and value sales growth. Over the review period, the range of available products diversified considerably in the retail channel. With the growing interest of South Korean consumers in Western food, the demand for a wider variety of cheese has increased. In addition, to satisfy the growing demand, manufacturers have extended their assortments by introducing various cheese types and products, including imported varieties. This trend...

Euromonitor International's Cheese in South Korea report offers a comprehensive guide to the size and shape of the market at a national level. It provides the latest retail sales data 2005-2009, allowing you to identify the sectors driving growth. It identifies the leading companies, the leading brands and offers strategic analysis of key factors influencing the market - be they new product developments, distribution or pricing issues. Forecasts to 2014 illustrate how the market is set to change.
