Abstracts

The growth in drinking milk products in dairy packaging in Vietnam is due to an increasing awareness of the importance of dairy products in a balanced diet, especially among health-conscious consumers. In addition, drinking milk is seen as a convenient way to obtain essential nutrients like calcium and protein. Moreover, the dairy industry in Vietnam has been expanding, with more brands and varieties of milk products entering the market. Changing lifestyles and urbanisation have also led to grea...

Euromonitor International's Dairy Packaging in Vietnam report offers insight into key trends and developments driving packaging across the category. The report also examines trends and prospect for various pack types and closures: metal packaging, rigid plastic, glass, liquid cartons, paper-based containers; flexible packaging.
