Abstracts

After two years of pandemic-driven decline, in 2022 all deodorants categories except deodorant wipes returned to growth in both volume and current value terms, as consumers went back to their normal social lives, and also travelled more. Deodorant sprays experienced the strongest volume growth, and even stronger current value growth, due to rising cost inflation, and established players launching new innovative products while also revisiting existing ones, thus driving strong unit price growth.

Euromonitor International's Deodorants in United Kingdom report offers a comprehensive guide to the size and shape of the market at a national level. It provides the latest retail sales data 2018-2022, allowing you to identify the sectors driving growth. Forecasts to 2027 illustrate how the market is set to change.
