Abstracts

While overall consumer awareness of skin diseases and infections is increasing in Kenya, there remain areas where stigma persists, creating a reluctance among consumers to seek help. For instance, vaginal antifungals are linked to the stigma of sexually transmitted infections arising from promiscuous behaviour. Lice infections are associated with inadequate personal hygiene, further discouraging consumers from seeking early assistance. Consequently, individuals often resort to do-it-yourself app...

Euromonitor International's Dermatologicals in Kenya report offers a comprehensive guide to the size and shape of the market at a national level.
