## Abstracts

Dermatologicals continue to enjoy steady growth in Latvia, although current value sales have slowed down drastically compared to the double-digit rates seen at the height of the COVID-19 pandemic. Price inflation is adding some movement to value growth but to a lesser extent than in 2023. Whilst spending more time at home during the pandemic, Latvian consumers became increasingly aware of the different types of dermatologicals, including the fact that there are specific OTC products to prevent o...

Euromonitor International's Dermatologicals in Latvia report offers a comprehensive guide to the size and shape of the market at a national level.
