Abstracts

Dermatologicals saw an overall increase in demand in 2023, although performance varied somewhat by subcategory. Nappy (diaper) rash treatments, for example, benefited from the return of consumers to more active lifestyles outside the home, which meant that babies and toddlers went for longer without being changed. During the long periods of seclusion associated with the pandemic, children wore nappies/diapers/pants less frequently or not at all, which decreased the risk of nappy rash. With the ad...
