Abstracts

Dermatologicals is set to register positive growth in current value and retail volume terms in 2023. With the WHO declaring the pandemic to be over in May 2023, there has been an increase in socialisation and physical contact between people which has helped to fuel demand for some dermatologicals. For example, closer contact between students has led to an upsurge in cases of head lice, cold sores and fungal skin conditions in schools, thereby boosting demand for a range of dermatologicals. In ad...

Euromonitor International's Dermatologicals in Portugal report offers a comprehensive guide to the size and shape of the market at a national level.
