Abstracts

In 2023, dermatologicals is set to return to solid current value growth, although performances are expected to vary widely across categories. For instance, hair loss treatments is expected to continue to benefit from consumers' perception of their hair as a vital part of their appearance. Many young, tech-savvy members of the population are particularly fixated on appearance, as they like to take selfies to post on social media. Factors contributing to hair loss include Saudi Arabia's weather co...
