Abstracts

Digestive health has recovered its status as a key growth driver in dietary supplements, with probiotics amongst the best performers in the Greek market. Demand was growing rapidly prior to the outbreak of COVID-19, but the pandemic led to growth slowing down as consumers switched their attention to products that could boost the functioning of their immune systems. In 2023, with the immediate threat from COVID-19 waning, probiotics has again started to post strong growth (sales had already incre...
