Abstracts

Dietary supplements is a sizeable product area in Israel, only second behind analgesics, and it is expected to register strong current value growth in 2023, and the highest rate during the review period. The COVID-19 pandemic has accelerated the adoption of healthier lifestyles in Israel. Consumers that worried about catching the virus and getting very sick have focused on taking better care of their bodies. In addition, many consumers learned about healthy eating and fitness during the pandemic...

Euromonitor International's Dietary Supplements in Israel report offers a comprehensive guide to the size and shape of the market at a national level. It provides the latest retail sales data 2018-2022, allowing you to identify the sectors driving growth. Forecasts to 2027 illustrate how the market is set to change.
