Abstracts

Similar to the pattern seen in vitamins, sales of dietary supplements continue to see steady growth in current value terms in 2023 due to increasing health consciousness. The market has been hit by the rising cost of raw materials and production which has forced players to raise their prices, but most consumers have accepted this as an inevitable consequence of inflation which has also pushed up the price of daily necessities and foodstuffs. Despite the increase in the cost of the living these p...

Euromonitor International's Dietary Supplements in Japan report offers a comprehensive guide to the size and shape of the market at a national level.
