Abstracts

Poor drinking water is leading to serious digestion problems, with consumers often for instance suffering from diarrhoea, due to the substandard water supply. This is being further exacerbated by climate change, which is leading to increased water shortages. This continued to contribute to volume sales of digestive remedies.

Euromonitor International's Digestive Remedies in Cameroon report offers a comprehensive guide to the size and shape of the market at a national level. It provides the latest retail sales data 2019-2023, allowing you to identify the sectors driving growth. Forecasts to 2028 illustrate how the market is set to change.
