The relevance of problems associated with gastroenterology and prospects of such problems further developing in Uzbekistan is evident from the large number of patients presenting digestive problems in Uzbekistan. According to trade sources, the prevalence of ailments related to the digestive system in the country ranked third after those of respiratory and cardiovascular systems. Chronic gastritis, which usually leads to ulcers, and reflux disease are common problems amongst Uzbekistanis.

Euromonitor International's Digestive Remedies in Uzbekistan report offers a comprehensive guide to the size and shape of the market at a national level. It provides the latest retail sales data 2012-2016, allowing you to identify the sectors driving growth. Forecasts to 2021 illustrate how the market is set to change.
