Discounters in Bulgaria were the best performing grocery retailers in 2023. With inflation still being high, consumers were price sensitive and prioritised value for money. As such, discounters registered a moderate increase in constant value sales. Several new outlets also opened.

Euromonitor International's Discounters in Bulgaria report offers insight into key trends and developments driving the industry. The report examines all retail channels to provide sector insight. Channels include hypermarkets, supermarkets, discounters, convenience stores, mixed retailers, health and beauty retailers, clothing and footwear retailers, furniture and furnishing stores, DIY and hardware stores, durable goods retailers, leisure and personal goods retailers. There are profiles of leading retailers, with analysis of their performance and the challenges they face. There is also analysis of non-store retailing: vending; homeshopping; internet retailing; direct selling, as available.
