Abstracts

The COVID-19 pandemic boosted dishwashing sales in 2020, as many nations entered strict lockdowns to curb the spread of the virus. Demand was driven by more frequent home cooking and remote working, while changes in consumer purchasing behaviour boosted the e-commerce channel in many markets. In the forecast period, buoyant sales are expected to be driven by remote working becoming more permanent, while rising dishwasher penetration is set to inject value into the market.

Euromonitor International's Dishwashing in Middle East and Africa global briefing offers an insight into to the size and shape of the Home Care market, highlights buzz topics, emerging regions, countries and categories as well as pressing industry issues and white spaces. It identifies the opportunity zones within home care, analyses leading companies and brands and offers strategic analysis of major factors influencing the market - be they new product developments, packaging/ format /ingredients innovations, economic/lifestyle/environmental influences, distribution or retail pricing issues. Forecasts illustrate how the market is set to change and criteria for success.
