Abstracts

Dishwashing has been adversely affected by price growth, leading consumers to adopt more economical practices. Users of automatic dishwashing machines are opting for full loads to maximise efficiency. Some consumers are downgrading from all-inclusive automatic dishwashing products to more basic, cost-effective options. Additionally, a shift from tablets to liquids and powders allows consumers greater control over the volume of product used.

Euromonitor International's Dishwashing in Finland market report offers a comprehensive guide to the size and shape of the market at a national level. It provides the latest retail sales data (historic date range), allowing you to identify the sectors driving growth. It identifies the leading companies, the leading brands and offers strategic analysis of key factors influencing the market - be they new product developments, packaging innovations, economic/lifestyle influences, distribution or pricing issues. Forecasts to 2028 illustrate how the market is set to change.

Product coverage: Automatic Dishwashing, Hand Dishwashing.

Data coverage: market sizes (historic and forecasts), company shares, brand shares and distribution data.
