Abstracts

The dishwashing category has benefited from consumers returning to home cooking or choosing food delivery/takeaways instead of going to restaurants. This has been visible with the continued trend towards consumers taking meals from home to eat in the office and avoiding restaurants due to the difficult economic context. Hand dishwashing managed to outperform automatic dishwashing in both volume and value terms in 2023.

Euromonitor International's Dishwashing in Portugal market report offers a comprehensive guide to the size and shape of the market at a national level. It provides the latest retail sales data (historic date range), allowing you to identify the sectors driving growth. It identifies the leading companies, the leading brands and offers strategic analysis of key factors influencing the market - be they new product developments, packaging innovations, economic/lifestyle influences, distribution or pricing issues. Forecasts to 2028 illustrate how the market is set to change.
