Abstracts

In 2011, per capita expenditure on DIY, home improvement and garden centres in Peru ranked as the third lowest in the region. This can be explained by the fact that the middle low-income and low-income segments, which constitute a remarkable part of the consumer base, cannot afford these types of products, as most of their budget is used to purchase essential items. In addition, with 2011 being a presidential election year, many companies postponed their construction plans after the elections...

Euromonitor International's DIY, Home Improvement and Garden Centres in Peru report offers insight into key trends and developments driving the industry.
