Abstracts

Future growth for drinking milk products (DMP) lies in a two-tier strategy. First, in mature regions such as Western Europe, adding value to DMP in terms of nutrition, lifestyle or traceability, allows for expenditure on DMP to increase while volumes falls. Second, in low consumption regions where DMP demand is booming, different strategies on educating the health benefits of milk, cold chain infrastructure and guaranteed quality are among the key considerations to increase penetration.

Euromonitor International's Drinking Milk Products: Developing a Two-tier Growth Strategy for Success global briefing offers an insight into to the size and shape of the Packaged Food market, highlights buzz topics, emerging geographies, categories and trends and identifies the leading companies and brands. It also offers strategic analysis on driving packaged food industry trends like health and wellness, premiumisation, convenience and value-for-money and how those trends influence factors like new product developments, packaging innovations, retail distribution and retail pricing both historically and into the future.

Product coverage: Baby Food, Bakery, Canned/Preserved Food, Chilled Processed Food, Confectionery, Dairy, Dried Processed Food, Frozen Processed Food, Ice Cream, Impulse and Indulgence Products, Meal Replacement, Meal Solutions, Noodles, Nutrition/Staples, Oils and Fats, Pasta, Ready Meals, Sauces, Dressings and Condiments, Snack Bars, Soup, Spreads, Sweet and Savoury Snacks.

Data coverage: market sizes (historic and forecasts), company shares, brand shares and distribution data.

Why buy this report?

Get a detailed picture of the Packaged Food market;

Pinpoint growth sectors and identify factors driving change;

Understand the competitive environment, the market's major players and leading brands;

Use five-year forecasts to assess how the market is predicted to develop.

Euromonitor International has over 40 years' experience of publishing market research reports, business reference books and online information systems.
