Abstracts

Retail sales of drinking milk products experienced modest growth in current value terms in 2023, following a decline in the previous year. The latter was primarily due to the impact of the COVID-19 outbreak and the government’s zero-COVID policy, which disrupted product supply in major cities, including Shanghai. While there was some improvement 2023, the overall weak domestic economy continued to hamper the performance of the category. Fresh milk saw a particularly sluggish showing, as its comp...
