Abstracts

E-commerce saw current value sales almost double in 2020, with the channel attracting many new first-time users. Due to the COVID-19 lockdown and social distancing measures, many consumers struggled to buy the same range of goods that they were previously able to access via store-based retailing, with many turning to e-commerce as a result. Many were also keen to minimise shopping trips away-from-home, in order to minimise their risk of contagion, with these also turning to the channel. As a res...
