Abstracts

Over the review period, ear care continued to be very small in terms of retail value sales among OTC products. It gained little interest from both manufacturers and consumers as the latter did not feel it necessary to purchase ear care. This was due to the fact that Vietnamese consumers were unaware of the benefits of ear care as manufacturers did not have any significant activity to educate consumers.

Euromonitor International's Ear Care in Vietnam report offers a comprehensive guide to the size and shape of the market at a national level. It provides the latest retail sales data 2008-2012, allowing you to identify the sectors driving growth. Forecasts to 2017 illustrate how the market is set to change.

Data coverage: market sizes (historic and forecasts), company shares, brand shares and distribution data.
