Abstracts

Retail prices of edible oils continued to rise in 2023 due to the inflationary climate, although at a slower rate than was witnessed in 2022. External factors, such as the high price of commodities and the war in Ukraine, have impacted the supply chain driving up unit prices. As a result, retail volume sales witnessed a moderate increase in 2023 after two years of decline. Nonetheless, consumers still remain cautious about spending and are prioritizing more affordable products, whilst also ratio...
