## Abstracts

Edible oils is enjoying a recovery back to normalisation in 2023, following the turbulence caused by the impacts of the Russia-Ukraine war. Indeed, in 2022, it was strongly noted how reliant France was on imports for its edible oils and, moreover, how reliant the country was on Russia and Ukraine, which previously supplied a high percentage of sunflower oil and associated products. As such, the war had a significant impact on the supply chain, resulting in sharp price hikes across several categories.

Euromonitor International's Edible Oils in France report offers in-depth knowledge of the market at a national level, providing local insight and understanding unavailable elsewhere. In addition to the latest retail sales data 2018-2022, it identifies the leading companies, brands and retail outlets, and assesses the key trends and demographic shifts behind consumer demand and sales growth. How key trends such as health and wellness, sustainability and recovery from the pandemic are shaping the market in directly informs our forecasts to 2027, clearly indicating how the market is expected to change.
