Abstracts

Edible oil prices continue to rise as a result of both local and domestic pressures and high inflation, which drives up the cost of amenities essential for manufacturing, such as water and electricity. Recent droughts and poor sunflower seed harvests in Canada, followed by the war in Ukraine, have driven up the price of sunflower oil since Israel relies heavily on imports. Olive oil is also largely imported and is particularly expensive in Israel and canola oil has also seen shortages and price...

Euromonitor International's Edible Oils in Israel report offers in-depth knowledge of the market at a national level, providing local insight and understanding unavailable elsewhere.
