Abstracts

Olive oil is an important part of the traditional Italian diet but the category has continued to see declining sales in retail volume terms in 2023, although elevated inflation and a sharp rise in prices has ensured the category has continued to see strong growth in current value terms. The increase in olive oil prices is mainly being driven by the complex economic situation, with production costs rising due to drought and other unfavourable weather conditions which have led to reduced product a...

Euromonitor International's Edible Oils in Italy report offers in-depth knowledge of the market at a national level, providing local insight and understanding unavailable elsewhere.
