Abstracts

Energy drinks remained one of the most dynamic categories in terms of growth in 2023. Even though consumption has been steadily growing for several consecutive years, the landscape has yet to hit maturity and continues to grow. Factors that are contributing to growth include the re-opening of the market post-pandemic, with consumers having busy lifestyles once more, boosting demand for energy drinks. The re-opening of nightclubs and recovery of tourist flows is also driving growth in Red Bull, o...

Euromonitor International's Energy Drinks in Greece report offers a comprehensive guide to the size and shape of the market at a national level. It provides the latest retail sales data (2018-2022), allowing you to identify the sectors driving growth. It identifies the leading companies, the leading brands and offers strategic analysis of key factors influencing the market – be they legislative, distribution, packaging or pricing issues. Forecasts to 2027 illustrate how the market is set to change.

SOFT DRINKS IN GREECE

EXECUTIVE SUMMARY

Soft drinks in 2023: The big picture

Due to dramatic price hikes in food, utilities and energy prices, consumers were forced to cut down on non-essentials, impacting soft drinks. Alongside supermarket sales of soft drinks decreasing, impulse purchases through kiosks and convenience stores also

suffered. The decline in disposable incomes equally impacted on trade performance, although most product sales were growing in line with the loss seen during COVID-19.
