Abstracts

The UN's Sustainable Development Goals (SDGs) are increasingly at the heart of businesses' sustainability strategies. Today, businesses cannot focus solely on the bottom line but must create value at all levels, including for wider society, with more companies engaging with the global goals.

Strategy Briefings offer unique insight into emerging trends world-wide. Aimed squarely at strategists and planners, they draw on Euromonitor International's vast information resources to give top line insight across markets and within consumer segments. Written by some of our most experienced analysts, they are designed as provocations for senior management to use in their own forum, allowing them to stand back and reflect on the behaviour and motivation driving global markets today and tomorrow

Data coverage: market sizes (historic and forecasts), company shares, brand shares and distribution data.
