Abstracts

Despite of the absolute ban on tobacco advertising in Vietnam since 2003, manufacturers leveraged the loose control of regulations by the government to expand their point-of-sale advertising as a means of enhancing brand awareness and increasing retail volume sales. Moreover, the low health awareness of Vietnamese consumers, together with the ineffectiveness of the government's education programme, boosted retail volume sales of cigarettes at the end of the preview period. While many Vietnamese...

Euromonitor International's Tobacco in Vietnam report offers a comprehensive guide to the size and shape of the market at a national level. It provides the latest retail sales data 2005-2009, allowing you to identify the sectors driving growth. It identifies the leading companies, the leading brands and offers strategic analysis of key factors influencing the market - be the new legislative, distribution or pricing issues. Forecasts to 2014 illustrate how the market is set to change.
