## Abstracts

The briefing introduces the 2022 Electric Vehicle (EV) Readiness Index which has been produced for 37 countries globally. The index seeks to assess the readiness of each country across four key pillars: Market Maturity, Income and Spending, Infrastructure and Incentives. It provides stakeholders with a more solid understanding of the opportunities and challenges of each market's electric vehicle industry.

Euromonitor International's EV Readiness Index 2022 report is designed specifically for stakeholders in the shared mobility and automotive industries. It seeks to provide an in-depth overview of the size, shape and scope of the shared mobility and automotive industries, examining the historic and future market trends. The report can also provide valuable insights to other industries that bear an indirect influence on the mobility and automotive industries including banks and financial services firms, technology companies, governments, and retailers. Forecasts in the reports are available to 2025.

**Product coverage:** Car Traffic Volume, Distances Travelled by Mode of Transport, Electric Charging Stations, Fuel Prices, Light Vehicle Sales, Shared Mobility, Vehicle Production, Vehicle Registrations, Vehicles in Use.

**Data coverage:** market sizes (historic and forecasts), company shares, brand shares and distribution data.
