## Abstracts

The evolution of men's grooming, fuelled by growing self-care, societal change, and the rise of gender fluidity, significantly influences the market. Trust and brand loyalty play major roles in male consumer decisions, bolstered by increasing grooming content over social media. Budget reallocation due to grooming behaviour shifting and inflationary pressure will negatively affect the market value. Despite the challenges, untapped and oncoming Gen Z consumers have gained prominence.

It identifies the leading companies and brands, offers strategic analysis of key factors influencing the market - be they new product developments, packaging innovations, economic/lifestyle influences, distribution or pricing issues. Forecasts illustrate how the market is set to change and criteria for success. The report also explores developments in the premium vs mass/masstige segments, and the evolution of novel beauty concepts.
