Abstracts

Sales of eyewear in Japan are being heavily influenced by unit price increases in 2023, following various unfavourable external conditions impacting production, raw material costs, and shipping of products. Furthermore, increasing labour costs and the weakening of the Japanese yen are also impacting the pricing of eyewear. While demand in the local market remains stable despite such a situation, product availability and price are expected to remain key areas to monitor for eyewear producers over...

Euromonitor International's Eyewear in Japan report offers a comprehensive guide to the size and shape of the market at a national level. It provides the latest retail sales data (2018-2022), allowing you to identify the sectors driving growth.
