Abstracts

Despite the economic crisis, the eyewear market in India as a whole displayed healthy growth in volume sales in 2009, while growth in its value sales slowed marginally relative to 2008. The demand for premium lenses, frames and sunglasses slowed more than that of the low-price and economy segments, so there was an overall slow-down of growth in value sales at the end of review period.

Euromonitor International's Eyewear in India report offers a comprehensive guide to the size and shape of the market at a national level.
