Abstracts

Economic and social conditions in the Philippines were very favourable to the fast food industry as at the end of the review period. Improved purchasing power pushed an even higher frequency of spending on food and the increasingly busy lifestyles of Filipinos, especially for the emerging middle class, heightened the demand for more convenience, which fast food players can take advantage of. Fast food continued to be the largest category within consumer foodservice in the Philippines in 2017, wi...

Euromonitor International's Fast Food in Philippines report offers a comprehensive guide to the size and shape of the market at a national level. It provides foodservice sales, the number of outlets and the number of transactions by sector, allowing you to identify the foodservice sectors driving growth. It identifies the leading companies, the leading brands and offers strategic analysis of key factors influencing the market - be they eating habits, lifestyle changes, tourism spending or legislative issues. Forecasts to 2022 illustrate how the market is set to change.
