Abstracts

The Korean economy grew at a faster pace in 2017, stimulating demand for financial and insurance services, although elevated household debt partly subdued the industry's growth. During the year the country benefitted from recovering global economies, which stimulated South Korea's vast export-oriented sectors such as semiconductors, a soaring construction industry, and rising business investments in local facilities. On the other hand, local financial firms recorded a slowdown in lending-related...

Euromonitor International's Industrial reports provide a 360 degree view of an industry. The Industrial market report offers a comprehensive guide to the size and shape of the Finance and Insurance market at a national level. It provides the latest retail sales data, allowing you to identify the sectors driving growth. It identifies the leading companies, the leading brands and offers strategic analysis of key factors influencing the market - be they new product developments, packaging innovations, economic/lifestyle influences, distribution or pricing issues. Forecasts illustrate how the market is set to change.
