Abstracts

Inbound arrivals from the majority of sourcing countries recorded negative growth rate in 2017. The appreciation of the Hong Kong dollar against the currencies of the majority of sourcing countries took its toll on inbound arrivals in 2017. A rising Hong Kong dollar made it less attractive to come to Hong Kong. On the other hand, competition from South Korea, Japan and countries from the Southeast Asia region also saw tourists turning their back on Hong Kong.

Euromonitor International's Flows in Hong Kong, China report offers a comprehensive guide to the size and shape of the market at a national level. It provides the latest market size data 2012-2016, allowing you to identify the sectors driving growth. It identifies the leading companies and offers strategic analysis of key factors influencing the market - be they new legislative, technology or pricing issues. Background information on disposable income, annual leave and holiday taking habits is also included. Forecasts to 2021 illustrate how the market is set to change.
