## Abstracts

Growth in Australia's food manufacturing industry in 2018 was propelled by rising production revenues for meat and meat products. Well known for its good quality beef, Australia registered sizable meat export gains during the year, aided by the abundant domestic supply of cattle for slaughter and growing demand for animal protein in Asian markets. According to the MLA – the Australian meat and livestock industry marketing and research body – Australian beef export value rose by 16% in 2018, with...
