Abstracts

Food intolerance was a combination of words not very familiar to the Russian customers at the beginning of the review period. Amongst the most widespread diseases known to the Russian audience was diabetes, though a large number of people suffering from initial stages of this disease or falling into the risk group are not aware of this fact or ignore it. Companies offering solutions to the market addressing food intolerance diseases made a good job during the review period educating their...

Euromonitor International's Food Intolerance in Russia report tracks the developments of health-associated product types and the healthy-option positioning of competing brands across different food sectors. It provides the latest retail sales data 2008-2012, allowing you to compare health and wellness categories with each other or in the context of the total market for a sector. It identifies the leading companies, the leading brands and offers strategic analysis of key factors influencing the market- be they new product developments, legislative context or lifestyle influences. Forecasts to 2017 illustrate how the market is set to change.

Product coverage: Diabetic Food, Gluten-free Food, Lactose-free Food, Other HW Special Baby Milk Formula.

Data coverage: market sizes (historic and forecasts), company shares, brand shares and distribution data.
