## Abstracts

Two factors combined to support the positive growth registered in food and drink e-commerce during 2021. The first factor to consider is that a high proportion of household spending in Romania is accounted for by food and beverages. This is a reflection of the low incomes that many Romanians continue to survive on, especially outside of major towns and cities, as well as the result of several years of significant price inflation across various consumer goods industries. With many households spen...

Euromonitor International's Food and Drink E-Commerce in Romania report offers insight into key trends and developments driving the industry. The report examines all retail channels to provide sector insight. Channels include hypermarkets, supermarkets, discounters, convenience stores, mixed retailers, health and beauty retailers, clothing and footwear retailers, furniture and furnishing stores, DIY and hardware stores, durable goods retailers, leisure and personal goods retailers. There are profiles of leading retailers, with analysis of their performance and the challenges they face. There is also analysis of non-store retailing: vending; homeshopping; internet retailing; direct selling, as available.

**Data coverage:** market sizes (historic and forecasts), company shares, brand shares and distribution data.
