Abstracts

In 2018, food and drink internet retailing in the Czech Republic recorded double-digit current value growth, as category players expanded their geographical coverage and improved their logistical capabilities. As a result, food and drink internet retailing increased its share of total internet retailing in 2018. As of 2018, demand for online groceries was still largely underserved by existing category players and so its full potential was yet to be reached. Companies are being careful in terms o...

Euromonitor International's Food and Drink Internet Retailing in Czech Republic report offers insight into key trends and developments driving the industry. The report examines all retail channels to provide sector insight. Channels include hypermarkets, supermarkets, discounters, convenience stores, mixed retailers, health and beauty retailers, clothing and footwear retailers, furniture and furnishing stores, DIY and hardware stores, durable goods retailers, leisure and personal goods retailers. There are profiles of leading retailers, with analysis of their performance and the challenges they face. There is also analysis of non-store retailing: vending; homeshopping; internet retailing; direct selling, as available.

Data coverage: market sizes (historic and forecasts), company shares, brand shares and distribution data.
