Abstracts

In 2009, food preparation appliances was affected by the economic crisis, but sales have since increased rapidly. This is because, unlike other categories, the low prices of these products allow them to be well sought by consumers when they have some extra money in their pockets and are looking for products they can afford to purchase in the short term without borrowing any money.

Euromonitor International's Food Preparation Appliances in Chile report offers a comprehensive guide to the size and shape of the market at a national level. It provides the latest retail sales data 2005-2009, allowing you to identify the sectors driving growth. It identifies the leading companies, the leading brands and offers strategic analysis of key factors influencing the market – be they new product developments, format trends or distribution issues. Forecasts to 2014 illustrate how the market is set to change.
