## Abstracts

Food preparation appliances experienced a strong decline in volume sales in 2023. After the COVID-19 crisis, households shifted their spending priorities away from food preparation appliances towards activities that had been largely curtailed by the pandemic, such as experiences, services and travel. While the COVID-19 crisis brought forward sales of food preparation appliances, they did not spike in the same way as in other areas of consumer appliances and, indeed, volumes remained below the le...
